

TRENDNET[®]

RUGGED INDUSTRIAL SOLUTIONS

Rugged Industrial Networking Solutions

Sample Factory Surveillance Application

TRENDnet industrial switch and fiber solutions provide dependable and hardened networking hardware for your extreme environments, including areas with severe temperatures, or heavy amounts of dust and dirt particles.

Extreme Temperatures

IP30 rated housing for harsh temperature fluctuations

Fiber Distance

Fiber optics support for long distance networking and latency

Camera Applications

Ideal for use with outdoor surveillance solutions

Sample NEMA box application

Industrial switches are often used with NEMA electrical enclosures.

NEMA boxes not available through TRENDnet

Français:

Solides solutions industrielles de mise en réseau. Les solutions fibres et switches industriels de TRENDnet constituent un matériel fiable et renforcé de mise en réseau pour vos environnements extrêmes, y compris les zones avec des températures très élevées ou très basses ou avec de nombreuses particules de poussière. Les solutions de switches industriels disposent d'un boîtier de classe IP30/IP40 pour les importantes variations de température, une compatibilité avec la fibre optique pour une mise en réseau sur de longues distances et aussi pour éviter les temps de latence. Ces Switches industriels sont idéales pour une utilisation avec des solutions de surveillance à l'extérieur et sont souvent utilisés avec les boîtiers électriques NEMA comme indiqué sur l'image (boîtiers non fournis par TRENDnet).

Deutsch:

Robuste industrielle Netzwerklösungen. Die industriellen Switch- und Glasfaserlösungen von TRENDnet bieten zuverlässige und gehärtete Netzwerkhardware für extreme Umgebungen, darunter auch Umgebungen mit extremen Temperaturen oder einem hohen Staub- und Dreckpartikelaufrücken. Die industriellen Switch-Lösungen von TRENDnet bieten Gehäuse mit Schutzklasse IP30/IP40 für starke Temperaturschwankungen, Glasfaseroptik für Networking über große Entfernungen hinweg und Latenzzeiten, und sind ideal geeignet für die Verwendung mit Outdoor-Überwachungslösungen. Industrielle Switches werden oft zusammen mit NEMA-Schaltschränken wie abgebildet verwendet (Schaltschränke nicht bei TRENDnet erhältlich).

Português:

Soluções de rede industriais robustas. Switches industriais da TRENDnet e soluções de fibra garantem uma rede confiável e preparada para ambientes com condições adversas, inclusive em áreas com temperaturas extremas ou grandes quantidades de partículas de poeira e sujeira. As soluções de switch industrial da TRENDnet oferecem proteção com classificação IP30/IP40 para as variações climáticas e ambientais extremas, suporte de fibra ótica para redes de longa distância e latência e são ideais para uso com soluções de vigilância ao ar livre. Switches industriais são muitas vezes utilizados com o gabinete elétrico NEMA como mostrado (gabinetes NEMA não estão disponíveis através da TRENDnet).

Español:

Soluciones de red industriales reforzadas. Las soluciones de switches industriales y fibra de TRENDnet ofrecen hardware reforzado y de confianza para entornos de alta exigencia, como zonas con temperaturas extremas o elevadas cantidades de polvo y partículas de suciedad. Los switches industriales de TRENDnet ofrecen carcasas con clasificación IP30/IP40 para temperaturas fluctuantes y extremas, compatibilidad con fibra óptica para latencia y trabajo en red a larga distancia, y son ideales para soluciones de vigilancia en exteriores. Los switches industriales suelen utilizarse con una caja eléctrica NEMA según se muestra en la imagen (TRENDnet no comercializa este producto).

TRENDNET®

TI-EU120

2-Port Industrial Outdoor Gigabit UPoE Extender

TRENDnet's 2-Port Industrial Outdoor Gigabit UPoE extender, model TI-EU120, takes a single UPoE connection and extends it an additional 100m (328 ft.) for up to two PoE+ devices. Contact us to learn more!

UPoE Power

Extends a UPoE connection up to 100m (328 ft.) to PoE (15.4W), PoE+ (30W), and UPoE (60W) devices.

Gigabit Ports

Features one gigabit UPoE input port and two gigabit PoE+ output ports that extends a single UPoE connection an additional 100m (328 ft.) to two PoE+ devices.

Outdoor Ready

Built for outdoor environments with an IP67 weather rating and an operating temperature range of -40° – 75°C (-40° – 167°F).

- Easy installation
- Daisy chain up to 4 units for a total PoE network extension of up to 500m (1640 ft.)
- Use a single UPoE connection to extend PoE for up to two devices
- No external power adapter required
- Built-in True Surge 6kV Protection

TRENDNET®

TI-UF11SFP

Industrial SFP to Gigabit UPoE Media Converter

TRENDnet's Industrial SFP to Gigabit UPoE Media Converter, model TI-UF11SFP, converts fiber to copper while providing power to PoE, PoE+ and UPoE compliant devices such as IP cameras, VoIP phones, and wireless access points. Contact us to learn more!

Industrial Applications

Networks devices for manufacturing, general industrial, logistics, surveillance, and corporate applications.

UPoE Output

Converts fiber to copper while providing power to PoE, PoE+ and UPoE compliant devices such as IP cameras, VoIP phones, and wireless access points.

Industrial Environments

Hardened IP30 converter, with a -40 to 75°C (-40 to 167°F) operating temperature range.

- SFP port accommodates Multi or Single Mode fiber
- Up to 40 km fiber networking distances with the TI-MGBS40 SFP module
- Provides up to 60W for PoE, PoE+ and UPoE compliant devices
- Includes DIN-rail and wall mounts
- Wide operating temperature range -40 to 75 °C (-40 to 167 °F)
- Powers supply sold separately (model TI-S12048)
